# INTRODUCTION

## ABOUT OUR COMPANY **G MAK**

---

### ABOUT US

G MAK established on 2nd March 2015 as G MAK Enterprises a small trading unit. Now, we are a leading Supplier of Gabions, Geo Grids, Geo Textiles, Geo Membranes, Geo Mats, Geo Cells and Service provider of soil reinforcement technology and many geotechnical solutions in India. G MAK Engineering Solutions is One of the fast-growing construction companies especially in Geo synthetics sector.

### OUR VISION

Our vision is to build a trusted relationship and serve our client through integrity, honesty, hard work and accountability in a collaborative, solution-oriented innovative and cost-effective site-specific solutions, using advanced “Gabion” and other geosynthetic products in providing the right solution in the most efficient way possible.

# GEO TEXTILE

Non Woven Polyester Geotextiles are versatile permeable fabrics that, when used in conjunction with soil, can effectively perform multiple functions, including separation, filtration, reinforcement, protection, and drainage. Typically crafted from polypropylene or polyester

## APPLICATIONS

- Earth Retaining
- Bridge Protection
- Culvert Protection
- Land Scaping
- Canal Lining
- River Bank Protection
- Pavements

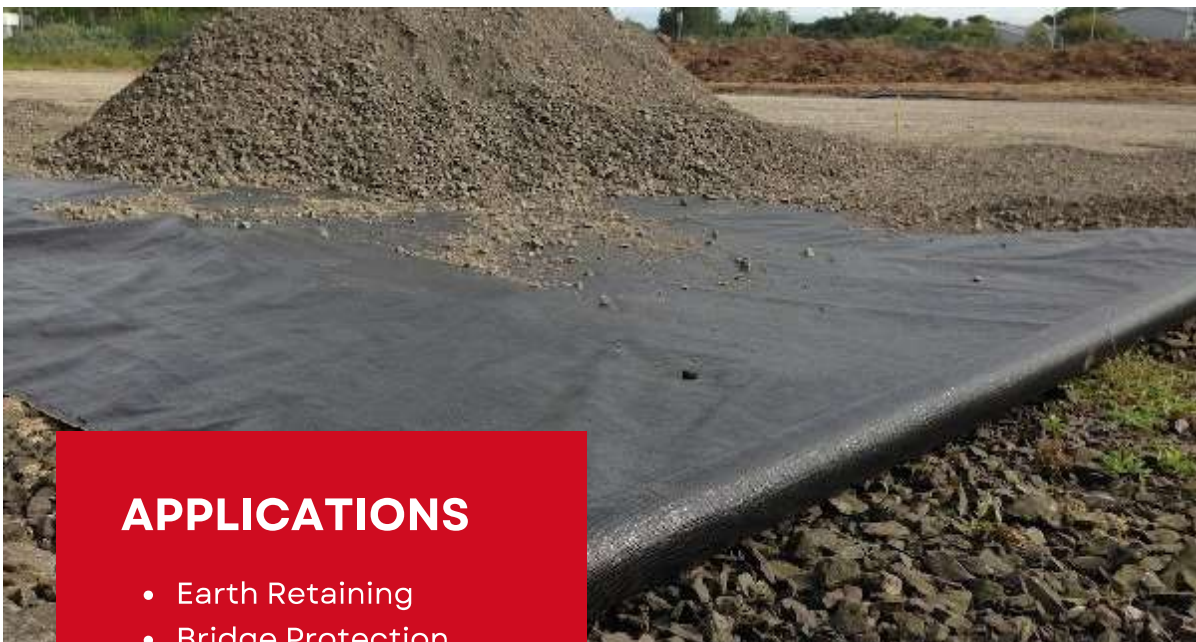

## ADVANTAGES

- Reinforcement
- Drainage
- Filtration
- Stabilization
- Separation
- Erosion Control
- Protection

# GEO TEXTILE

"Woven geotextiles" are a type of geotextiles which are manufactured by interlacing two or more sets of yarns, fibers, filaments, tapes or other elements. These threads are generally woven straight and parallel to each other. Generally woven textiles exhibit high tensile strength, high modulus, high permeability and low elongation.

## APPLICATIONS

- Earth Retaining
- Bridge Protection
- Culvert Protection
- Land Scaping
- Canal Lining
- River Bank Protection
- Pavements

## ADVANTAGES

- Reinforcement
- Drainage
- Biaxial Resistance
- Stabilization
- Separation
- Erosion Control
- Protection
